

FORT WASHINGTON PARK

PUBLIC USE COUNTING AND REPORTING PROCEDURES

Following are detailed instructions for collecting and reporting data to be entered on Form 10-157, Revised, Monthly Public Use Report by Fort Washington Park. These instructions are effective the date of issuance and will continue in effect unless changed by amendment or by memorandum from the Socio-Economic Studies Division to the superintendent approving a requested change.

Each item below describes the procedures to be followed in collecting public use data and summarizing the various elements of those data for entry on the corresponding line on the 10-157, Monthly Public Use Report.

Recreation Visits

1. An inductive loop traffic counter is located on the entrance lane to the park. The traffic count is multiplied by the persons-per-vehicle multiplier in Table 1.
2. The number of walk-in visitors.
3. The number of jogging visitors.
4. The number of bicyclists.
5. The number of visitors entering the fort.
6. The number of visitors attending special events.

Recreation Visitor Hours

The total number of recreation visitors is multiplied by three hours (January, February, November, and December) or four hours (March through October)
